# HEPATITIS C

Get  
tested!

## How can I get infected?

When Hepatitis C virus enters your body, through blood-to-blood contact:

- using the same toothbrush, Hair shaver or nail cutter with other people
- through unsterilized tattoo tools.
- anal or vaginal sex without a condom
- sharing drug equipment with other people

## How can I protect myself?

- Do not share toothbrushes, hair shaver or nail cutter with other people.
- Make sure that the tattoo tools are sterilized or only new disposable tools are used
- Always use condom during sex
- Do not share sex toys
- Do not share drug equipment e.g., syringes, sniffer tubes and rolled-up bank note with sharp edges

There is no vaccination for Hepatitis C, but it is curable. Aids Hilfe Wien will counsel you in person, by telephone or email. Our counselling is anonymous (secret) and free.

**We care for you** - Our registration hours are as below:
