

Only a test can tell you if you have HIV.

At Aids Hilfe Wien you can **get tested** free and anonymously (secret) on **HIV**. And you can also test on **Hepatitis B, C and Syphilis**. Just come by:

Mon, Wed, Thu 4-7 pm
Fri 2-5 pm

You can also get free condoms between Monday and Friday from 9 am to 5 pm.

Aids Hilfe Wien
1060, Mariahilfer Gürtel 4

I'm **sexy** cause I know it.

I test regularly for HIV.

HIV? I know it.

If you know HIV, you can easily protect yourself and others:

- 1** There are many ways to stop HIV, like using condoms or **testing** regularly.
- 2** Unprotected sex is the most common way of HIV transmission.
- 3** HIV can't be passed on through day-to-day contact.
- 4** Nowadays, HIV can be **treated** effectively. Therefore people living with HIV can stay healthy and live long.
- 5** People on effective treatment can't pass HIV on to others when having sex.

Do you know it?
